

SNEHA REDDY

Data Scientist

Email: sneha.reddy@outlook.com | Phone: +91-9876501234

LinkedIn: linkedin.com/in/snehareddy

PROFESSIONAL SUMMARY

Data Scientist with 3 years of experience in statistical modeling, data analysis, and business intelligence. Strong analytical skills with expertise in Python, R, and SQL. Transitioning into machine learning engineering role.

WORK EXPERIENCE

Data Scientist | Analytics Corp, Mumbai

April 2021 - Present

- Performed exploratory data analysis on large datasets (10M+ rows)
- Built predictive models using regression and classification algorithms
- Created dashboards and visualizations using Tableau and Power BI
- Conducted A/B testing and statistical hypothesis testing
- Worked with stakeholders to derive actionable business insights
- SQL query optimization and database management

Data Analyst | Business Insights Ltd, Pune

June 2020 - March 2021

- Analyzed customer behavior data to identify trends and patterns
- Generated weekly and monthly reports for management
- Data cleaning and preprocessing using Python pandas
- Basic machine learning models for customer segmentation

EDUCATION

Master of Science in Statistics

University of Pune

2018 - 2020 | Grade: First Class

Bachelor of Science in Mathematics

Mumbai University

2015 - 2018 | Grade: First Class with Distinction

TECHNICAL SKILLS

Programming: Python (pandas, numpy, scikit-learn), R, SQL

Data Visualization: Tableau, Power BI, Matplotlib, Seaborn

Statistical Tools: Hypothesis testing, Regression analysis, Time series

Databases: MySQL, PostgreSQL, Microsoft SQL Server

Basic ML: Linear Regression, Logistic Regression, Decision Trees, Random Forest

Tools: Jupyter Notebook, Excel, Git

PROJECTS

1. Sales Forecasting Model

- Built ARIMA time series model for monthly sales prediction
- Achieved MAPE of 8% on test data
- Presented insights to business stakeholders

2. Customer Churn Analysis

- Performed survival analysis and built logistic regression model
- Identified key factors driving customer attrition
- Model accuracy: 78%

3. Market Basket Analysis

- Applied association rule mining (Apriori algorithm)
- Discovered product bundles for cross-selling strategies

4. Credit Risk Assessment (Online Course Project)

- Built random forest classifier for loan default prediction
- Completed as part of Machine Learning course

CERTIFICATIONS

- Applied Data Science with Python - University of Michigan (Coursera)
- SQL for Data Science - UC Davis (Coursera)
- Tableau Desktop Specialist (2022)
- Google Data Analytics Professional Certificate (2021)

ADDITIONAL INFORMATION

- Currently learning TensorFlow and deep learning through online courses
- Participated in 2 Kaggle competitions (best rank: top 30%)
- Strong communication and presentation skills
- Proficient in creating executive-level presentations
